February Recap

During the month of February the children were busy making hearts and learning about emotions they might feel and that it's ok to have feelings. We compared emotions and came to the conclusion that feeling happy and making good choices is what makes us feel the best. The children are learning more to resolve their own conflicts instead of always "telling" on their friends. We are guiding them to use the Peace Rose and other activities on the Peace shelf.

March Newsletter

During the month of March we will be learning about the largest Continent on our planet, Asia. Since it is a large continent we focus on India, China, Japan, and the Philippines. We will be singing our Geography songs about this continent as well. In Art, we will be doing a lot of watercolor painting since many countries of Asia use this form of painting.

Friday March 15th is ST. Patrick's Day dress in green.
