

Evergreen Classroom

August recap:

in August, our young explorers embarked on a joyful journey through a variety of engaging topics that sparked curiosity and creativity. We began with class rules, where children practiced being respectful, kind, and responsible. Through playful activities and sensory stations, they learned how each sense helps us. The excitement continued as we explored animal sounds, with children enthusiastically mimicking lions, ducks, cows, and more. We took a trip around the globe and learned the names of the seven continents, using songs, maps, and stories the children. It was a lively and laughter-filled experience.

September news:

This month, our curious toddlers have been joyfully exploring the theme of *Myself*, learning about their bodies, feelings, and unique identities through songs, stories, and hands-on activities. In the classroom, the iconic *Pink Cubes* have sparked early spatial awareness and concentration, while *Practical Life* exercises—like pouring, sweeping, and buttoning—are helping build independence and fine motor skills. As autumn arrives, the children are delighting in seasonal changes, collecting leaves and noticing the crisp air. Early literacy and numeracy are blooming too, with playful introductions to *letters* and *numbers* through movement, games, songs and sensory materials. It's been a season of joyful growth!

Dates to Remember: September 1st: School closed for Labor Day

EVERGREEN CLASSROOM

Theme: North America

Month : September 2025

Monday	Tuesday	Wednesday	Thursday	Friday
1 School closed	2 All about me (Story time)	3 Draw 'Myself'	4 Discussion on Friendship Who is your best friend and why?	5 Grandparent Day celebration
