

Rainforest Classroom

August recap:

Children finished the unit 'Solar system' during August. They learned a lot of information about the planets and our Earth. They also helped us clean and organize the classroom in order to start the year off in beauty. Our August curriculum plan was about Care of Self, Care of the Environment, Healthy Eating. We talked about the Montessori classroom and who was Maria Montessori. Time was also been spent going over classroom procedures and policies. It was a fun filled month.

September news:

Children will learn about North America in September. They will study about USA, Canada, Mexico and Greenland. They are going to learn about the map, flag, national animal, bird, fruit and flowers of those countries. In addition to this they will work on the sounds of few letters and learn some Montessori jobs,

To develop intergenerational bond, we will celebrate Grandparent's Day to remind the children about the importance of having them in our life. They will make some craft for their Grandparents.

Children will also learn about the life cycle and parts of apples. As a part of sensorial development, they will cut and taste different varieties of Apples.

Dates to Remember: September 1st : School closed for Labor Day
