## March 2026

### February Recap

February was a joyful month filled with hands-on learning, creativity, and social-emotional growth. Our toddlers explored colors by painting rainbows with toy cars, strengthening fine motor skills and learning cause and effect. Through songs like "Twelve Months," "This Little Piggy," and "Row, Row, Row Your Boat," children developed language, rhythm, and early literacy skills.

We also learned about dental health by practicing healthy habits and welcoming a special visit from the Tooth Fairy. Valentine's Day brought fun activities including dancing, heart puzzles, scissor practice, counting exercises, and a Valentine exchange that encouraged kindness and sharing. Additional highlights included a Chinese New Year craft, celebrations for President's Day. During Emotions Week, children explored feelings such as happiness, sadness, anger, surprise, and tiredness, helping build emotional awareness and self-expression.

### What's Coming in March:

March will be full of music, color, and springtime learning. Children will enjoy songs that build early literacy and counting skills, practice letter recognition and name tracing, and learn about the life cycle of caterpillars and butterflies. We will explore weather concepts like clouds, wind, and rain, celebrate St. Patrick's Day with festive activities, and practice teamwork through our Spring Cleaning project.

**Tuesday 17<sup>th</sup> is ST. Patrick's Day. Please dress your child in green on that day.**

**Maple Tree Lesson Plan**  
**Month: March 2026**

Monday	Tuesday	Wednesday	Thursday	Friday
