

Redwoods Classroom

February 2026 Recap

The month of February children celebrated birthdays of presidents by making booklets, composed sentences and learned songs about them. Explained how to resolve problems respectfully. They learned stories and songs about Valentines Day and exchanged cards to show love and friendship.

March Newsletter

We began the month of March by celebrating Dr. Seuss's birthday and encouraging children to participate in Read Across America to help develop key skills such as reading, phonics, spelling, writing, and emotional awareness. The children will also learn about the largest continent, Asia. We will explore different Asian countries and their cultures, traditional foods, and flags. The children will create maps, booklets of country flags, and learn about animals found in Asia. They will also have the opportunity to taste foods from India, China, and Japan.

In the mid-March they will learn about the spring season. As the earth is orbiting around the sun. Explain how 'Rainbows' form in the sky during Springtime. They will learn Spring Songs and write sentences about spring.

Pi-Day is observed on March 14th. The kindergartens learn to identify the Pi symbol, learn circumference and diameter with lots of hands-on activities. Which make children feel Math is fun.

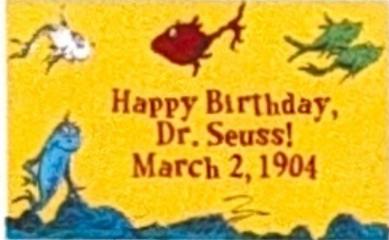

On 20th of March is the day of Spring equinox they learn spring is a time of growth and beginnings. As the weather changes from cold to warmer weather as the planet orbits around the Sun. The children will continue to learn songs about the Spring weather. Compose sentences of Spring as well as art projects.

St Patrick's day will be celebrated on March 13th. The children will learn about Ireland languages, cities and culture, flag, food and art projects.

Tuesday 17th is ST. Patrick's Day. Please dress your child in green on that day.
