

Evergreen Classroom Newsletter

APRIL RECAP:

In April, the children explored Asia through stories, crafts, and music while learning about its cultures and traditions. They enjoyed an Easter egg hunt on April 3rd and practiced tracing letters and numbers. On April 16th, they planted and cared for plants from home, building responsibility and a connection to nature. They also learned about recycling, spring weather changes, and insects through hands-on activities. Overall, the month focused on environmental awareness, kindness, and appreciation of nature and community.

MAY PLANS:

In May, children will explore Europe through stories, crafts, music, and cultural activities while creating themed art projects. They will celebrate Mother's Day on May 8 and show appreciation during Teacher Appreciation Week (May 4-8). Learning activities will include sorting numbers, tracing letters, and cutting and pasting. On May 25, they will honor Memorial Day with a special art project. They will also study amphibians, their life cycles, and ecosystems through hands-on activities, while building kindness, community, and environmental awareness.

Dates to remember

Patrick's birthday may 24th

Memorial Day May 25th

green Classroom May Month Lesson Plan Month: May 2026
