

Rainforest Classroom- Newsletter of June 2026

May recap

The children had a wonderful time learning about different parts of Europe, including France, Spain, and Italy. To make the experience even more enjoyable, they also tasted croissants and baguettes during snack time. Along with our Europe theme, we explored the life cycle of frogs, which was a fun and meaningful learning experience for the children.

Mother's Day was celebrated with a small treat from the school. The children also made beautiful cards to express their endless love and appreciation for their mothers.

We were very proud to celebrate our Transitional Kindergarten Graduation Ceremony on May 15th. It was a beautiful and memorable event for our graduates and their families.

We would also like to sincerely thank all the parents who pampered and spoiled us during Teacher Appreciation Week. Your kindness, love, and support mean so much to us!

June news

June will be an exciting month as our summer fun begins! Along with our daily activities, children will learn about Australia and Oceans in the classroom. We will also enjoy water activities, movie time, baking, coloring, and fun science experiments. It will be a wonderful month full of learning, creativity, exploration, and summer excitement!

Theme: Australia and Oceans
