

Redwoods

Month of June, 2026

May recap....

The children had a wonderful time learning about different parts of Europe, including France, Spain and Italy. Mother's Day was celebrated with a small treat from the School. Children also made beautiful crafts to express their endless love and appreciation for their mothers.

We were very proud to celebrate our Transitional Kindergarten Graduation Ceremony on May 15th. It was a beautiful and memorable event for our graduates and their families.

June activities

As summer is approaching the children will have the opportunity to experience outdoor water activities. We will explain why June has the longest daylight and the "Summer Solstice". We will also learn about Ocean animals. For example, dolphins and whales. Also, the different kinds of fish. The children will be learning about the layers in the ocean, the sunlight, twilight, midnight, abyss and trench layer.

We will be celebrating our fathers for Father's Day and making a special craft for them to take home to dad. They will also enjoy "ice cream day" and learn how to make milk shakes with strawberries and yogurt. 🍦 The children will learn about the continent of Australia such as the countries, the scientists, composers and artists from there.

Important dates to remember:

Father's Day Celebration June 19th

Juneteenth June 19
