

Redwoods Classroom August Newsletter

July recap

During the month of July, the Redwood classroom explored a variety of exciting topics. The children learned about ocean animals, including whales, sharks, dolphins, and octopuses, and also discovered the wonders of the solar system. They enjoyed fun water play activities. In addition, we had several exciting field trips to the Children's Museum, Busy Kids, the Nor Cal Aquarium, and the Aerospace Museum, where the children had wonderful opportunities to learn through exploration and play.

August news

In the Redwood classroom, we will focus on establishing classroom routines and helping children adjust to the new school year. Students will explore the themes **"Back to School"** and **"All About Me"** through activities that promote name recognition, writing, and self-awareness. We will learn about our families, pets, classroom rules, and the fall season. Children will also be introduced to the globe, continents, and the world map. Throughout the month, we will enjoy school-themed stories, creative art projects, and practice important information such as the school's name and phone number while reinforcing classroom rules each day.

Dates to remember:

August 3rd

1st day of school
